

CREATING YOUR SCHOOL DISTRICTS EV ACTION PLAN

New York State's landmark decision to transition all school buses to electric by 2035 will revolutionize school transportation, not only in the buses we see on the road, but how these buses are selected, maintained, and operated.

In September of 2023, Under New York State's electric school bus initiative, Governor Hochul announced a \$100 million allocation from the Environmental Bond Act for zero-emission buses. The program, managed by NYSERDA, offers incentives for electric and hydrogen fuel cell bus purchases and infrastructure.

But with limited funding, districts prepared to act will be better prepared to fully utilize available funding and resources.

ENERGY CONSULTANTS, ADVISORS, AND TEACHERS

With over 25 years of experience, Power Management Company, in collaboration with Essential Constructs, is your ideal partner for supporting the electrification of your school's fleet. More than consultants, we specialize in implementing efficient EV charging solutions tailored to meet the unique needs of educational institutions.

CREATE AND EXECUTE ON YOUR EV ACTION PLAN

As your partners and energy consultants, Power Management and Essential Constructs are ready to help you create a plan and navigate the complexities of choosing, installing, and operating the right type of EV Charging solution for your district's needs. From inception to installation, commissioning, and operation, we'll be at your side to provide expert guidance and insight.

SUPPORT YOU CAN TRUST

SITE ASSESSMENT & SITE PLANNING

Our engineers expertly evaluate your site for EV charger installation, providing a concise plan highlighting key steps, timelines, and any extra costs

TAILORED EV CHARGING SOLUTIONS

We select EV charging options that align with New York State standards and your district's specific needs, focusing on cost, maintenance, and achieving your goals.

CONSTRUCTION AND INSTALLATION

Trust our skilled management for the construction and installation of your EV project, ensuring compliance, quality, and adherence to budget and timelines.

NAVIGATING INCENTIVES POST-INSTALL

After project completion, we diligently manage the acquisition of rebates, grants, and incentives, ensuring every financial opportunity is leveraged for your district's benefit.

TAKE ADVANTAGE OF A NATIONAL COOPERATIVE CONTRACT, OBTAIN BETTER PRICING OPTIONS AND PUT YOUR DISTRICT AHEAD OF THE CURVE
